

Shine-A-Cast

High Shine

DECO PRODUCTS, INC.

Penetrating/ Form Filming Enhancer

Product specification

Shine-a-Cast is a beauty enhancing paver sealer with the capability to help lock joint sand. Shine-a-Cast penetrates deep into the substrate while leaving a semi protective layer on the surface producing a higher shine. Shine-a-Cast can be used to revive worn out sun faded surfaces. Color pigments can be added to customize any job.

Non- Hazardous Totally Water- Based

B E N E F I T S
