# Super StripaCast

## Paver Stripper

### Easily Strips Most Sealers and Coatings

#### *Product specification*

Super StripaCast is an environmentally friendly stripper designed to remove old coatings from concrete paver surfaces. Super StripaCast like all other strippers will react differently to different materials and coatings. For this reason, always do a small test area to ensure desired results. A scrape test is also a good way to determine if the Super StripaCast is degrading the old product.

### Non- Hazardous Totally Water- Based

#### B E N E F I T S

- Can be sprayed with a pump sprayer
- Contains no Chlorinated Solvents like other products
- Can be used as a cleaner as well as a stripper
- Can be used on sandstone materials
- Will remove various acrylic coatings
- No rollers or brushes required to apply
- Can be applied in cold and hot temperatures
- Excellent dwell time
- Non toxic- Non hazardous- Non flammable

#### *Use: For approved applicators*

**New & existing construction:** Apply Super StripaCast with a hand pump sprayer or roller to assist in removing old degrading sealers from porous concrete surfaces. Turbo tip off after material has cured to a white haze. Repeat if necessary. See applicators guide for more details.

Made in the U.S.A.
