“Dry As a Bone”™

DECO PRODUCTS, INC.

DECO TAC Primer/ Adhesive

DESCRIPTION

Deco Tac is a waterborne primer/ adhesive designed to promote extra bonding of Deco Foundation Guard to substrates when you are unable to strip the previous coating completely off. Deco Tac has no solvents and meets California's VOC requirements.

USE: For Approved Applicators

Existing Construction: Apply Deco Tac without dilution directly to the substrate with a roller or brush. Deco Tac will appear milky white during application and will turn transparent when ready to use.

B E N E F I T S
